Half Million Dollar Improvement At Mill

Ground has been broken for the erection of two additional open hearth furnaces at the Pittsburgh Steel plant and it is estimated that when these additions have been completed $500,000 will be expended. The two new furnaces will complete the company's original plan of ten furnaces. These are of the 90 ton pattern. The contract has been let to the Lockman Bros. company of Pittsburgh and a force of workmen are already engaged in the improvements which will be completed within three or four months. The new furnaces will be erected alongside of the eight now in operation and will increase the present output from about 14.000 tons to 16,000 tons. With the two modern blast furnaces in operation they can readily take care of the additional open hearths.

A number of other improvements are contemplated at this and other mills of the town and when they are completed it is expected that a thousand additional men will find employment here. The Pittsburgh Steel at present working to capacity employs over 5,000 men and has an annual capacity of 600,000 gross tons. This entire output is turned into finished product in their various finishing mills. Among other wire products the company turns out daily about 400 miles of electrically welded wire fencing, 200 tons of barb wire and 8,000 kegs of nails. All these products are made from basic open hearth steel. When the plans were made for extension some years ago this addition to the local plant was contemplated and the company is only carrying out their original contract and does not give credit to the European war for the additions.

Wilbur Sibbitt Dead

A telegram was received this morning by Mrs. F. E. Shutterly, announcing the sudden death of her brother, Wilbur C. Sibbitt at San Francisco, Cal. No details were given, but it is thought he probably died from an attack of appendicitis, as he had several attacks and in a letter received last week mentioned that his side was bothering him and he would have to undergo an operation.The young man left here last February and went to the home of a sister in Littleton, Col., and later joined the navy, being stationed in San Francisco. The body will arrive here some time Friday and will be taken to the home of Mrs. Shutterly in the Barben flat on Fifth street. Arrangements for the funeral have not yet been made.

Cheer Up, Be Hopeful and Happy

This country is out of danger. Do not sit at home at nights worrying over the past. Look for the present. Set your foot on a solid base for your future and your children's future. Great things can be accomplished by nourishing your brain. The world is builded by a score of men with brains but it took millions of hands and those hands often have been replaced by the man's brains, the machinery. The mule is working perpetually for his food only and often has to do without.

Our great pictures produced by money and brains are a valuable food to anyone, young or old. You can learn in one hour more out of a good picture than you have learned in all your life. Do not stand in your own light. Get out of your head the name meatre. The moving picture institution today, they stand on the same

Horse Killed

A car on the local street car line run down and so badly injured a valuable horse belonging to J. A. Sheetz that the animal had to be shot. Both of its front legs were broken. Mr. Sheets was informed of the tragedy at his hotel in Greensburg and he instructed the officers to put the horse out of misery at once. It seems that the driver for Mr. Sheetz had stopped the horse and wagon on the street car tracks and had gone into a house and while in there the car came along and dashed into the vehicle.

Mr. Sheetz came to town this morning to make an investigation. The horse is valued at about $200 and Mr. Sheetz will expect the street car company to recompense him for the loss.

League Organized

Indications are pointing to great success for the much talked of basket ball league for the Monongahela valley. Many of the magnates of the clubs in the river district were present at a meeting held in the National club rooms Sunday afternoon at Fayette City. Organization was the first object of the meeting and was taken up promptly after which a long discussion on the prospects for the coming season took place with good suggestions to be taken up at a future meeting.

Officers were elected as follows: E. D. Steinman, Jr., of Fayette City, president; James Donovan of Monessen, vice president; James Gee of Monongahela, treasurer; John Wolfe, of Allenport, secretary.

The clubs interested in the league will represent the following towns, Fayette City, Allenport, Charleroi, Donora, Monessen and Monongahela. All the above teams are now managed by men who have had much previous experience in the affairs of the quintette sport and all clubs have a splendid following.

Teachers' Institute

County Superintendent of Schools, Robert C. Shaw has made arrangements as to the instructors for the Westmoreland County Teachers' Institute. The institute will be held this year during the week of December 13-18 in Greensburg.

Among the speakers at the morning and afternoon sessions will be Dr. E. B. Bryan of Colgate University, Hamilton, New York; Dr. S. D. Fess of Washington, D. C., Congressman from Ohio; Prof. Charles H. Albert of the Bloomsburg Normal; Supt. R. B. Teitrick of Harrisburg; and Dr. J. George Becht, secretary of the State Board of Education, of Harrisburg. Another will be Dr. C. B. Robertson of the Pittsburgh University.

Robert J. McDowell of Pittsburgh, will again be musical director for the week's institute. Soloists will be Miss M. Gertrude Fraley of McKeesport, and Mrs. Maud Wentz McDonald. Miss Nell Byerly will play the accompaniment.

Evening entertainments will include the following: On Monday evening the Old Home Singers will give a concert. On Tuesday evening Dr. Fess will discuss "Half the World in Arms." On Wednesday evening the Webber Male Quartette of New York City, appears. Thursday evening Dr. Parks Cadman will lecture on "Modern Babylon."

Supposed Murderer Was Arrested Here Last Night

Officer Pasco of the local police force, arrested Louie Cample at the P. & L. E. passenger station last evening and turned his prisoner over to the California officials, to answer a charge or murder, the crime having been committed about one hour previous to the arrest.

According to reports received here, Cample with his friend, John Gaitoe, of California, went to Brownsville yesterday afternoon and on their return trip got into an argument over a girl. When they got off the train at California, they were still wrangling, and at Third and Union street, Cample suddenly put his hand in his coat pocket, a shot followed and Gaitoe fell mortally wounded. The bullet went through Cample's coat pocket and entered Gaitoe's right lung. He was hurried to a nearby physician's office, but died only a few minutes after the shooting.

Cample escaped and went to his room nearby. Curious persons hearing the shot, soon gathered at the scene of the murder and several went for a couch upon which to place the injured man. In their search for a couch, they entered Cample's room and not knowing he was the supposed murderer, told him of the death of Gaitoe. He rushed out of the building as if to go to the scene of the shooting, but instead made his way to the Coal Center ferry and crossed over to this side of the river.

It was reported that the supposed murderer was about to board the P. & L. E. train at East California, and the police of all towns along the valley were notified to be on the lookout for the man. Officer Pasco of the local force was given the assignment and when the man stepped from the 8:10 train last evening he was promptly placed under arrest and taken to the police station. Constable H. B. Lake of California, was notified and arrived here shortly afterwards, identifying the prisoner and returning with him to California.

Poor Judgment

Residents of Linden avenue are telling a good one on a driver for L. P. Carter. According to their reports the man delivered a load of coal to the home of Robert McNeil on that street, and without making inquiries, began to unload the coal in what he thought was the coal chute. About a third of the coal was unloaded when the driver discovered the supposedly coal chute filled and went into the house for further orders. It was then discovered that instead of putting the coal in the bin, the driver had filled the cold air shaft leading to the furnace.

Good News

Circumstantially it seems that Tuesday is drawing and drawing near to be our banner day. I have the greatest news for the Olympic theatre fans, but I would not let them out yet until later just to surprise our patrons. I only have to tell you that next Tuesday, Nov. 23 we will have a wonderful picture "The Sins of a Mother," a picture which has been shown in the largest theatres of the country from two to six weeks continuously at the admission of 25c up to $1.00. Watch for further advertising. But this is not all. The following Tuesday, Nov. 30 we will have another wonderful picture, "The Rosary" in seven reels, famous the world over. Of course today we have Pathe Gold Rooster feature, a guaranteed feature. 1t

The Towns Advertising

The question is often asked, what practical things can be done to advertise our town. In some places the citizens wear "booster buttons"—except when they go out of town where the advertising might do some good. Some towns take write-ups in trade papers. If these peridicals have a real circulation, this should have value. Frequently the circulation is confined to people who buy the writeups.

In some cities business men print cuts of local scenes on their corresponding envelopes. But you can't make a town seem attractive merely by a photograph of the brick walls of some factory. You need to show pleasant streets, attractive buildings, trees and other foliage, to give some impression of taste and civic self respect.

Statements of a town's advantages are often circulated on letter heads and envelopes. These are so detailed that few people read them. Still they help the citizens of a town to respect their own achievements. Many railroad towns display a town slogan at the railroad station. These mottoes are often boastful and impossible. If they concentrate in a phrase some real service the town is rendering, the idea is excellent. Campaigns for new industries are common. These are hopeful where the citizns are willing to devote time and money to the effort.

All these ideas are good if well handled. But the most effective method is the cultivation of town spirit. Some places are full of people who always disparage their home place. They think this shows they are persons of fine discrimination. This attitude repels would-be residents, and discourages home enterprise.

In other towns the citizens take all possible occasion to speak well of their own community. They commend its schools, churches, social life and business push. They send away programs of entertainments, pictures of attractive scenes, newspapers containing reports of notable events. Where a town has that spirit it becomes widely known. It can't help growing.

That Resolution

A traveling salesman was remarking the other day that he had sold the usual quantity of goods the past few months, in spite of the war and other depressing causes. But he had found many of his customers hard up because of the unusual number of requests for credit. It was his opinion that in both good and bad times the American people are getting in the easy habits about payment of bills.

It is not always the hard pressed workingman on short time who dodges the bill collector the most actively. Many of the well to do are habitually slow pay. They make requests for further accommodation with the air of conferring a lordly favor.

When the victim of ill health or other misfortune asks for a bill of goods on trust, it is often practically a request for charity. The merchant fails to see why he should carry the whole burden of the community's misfortunes. So he charges up to his trade the expenses of bad debts. Thus the frugal and thrifty, who may live even parsimoniously, are compelled to pay for luxuries for the extravagant.

There are of course some applications for credit that are legitimate. People have to take risks, start out on new ventures with small capital, seek better positions, or industry would stagnate. If fortune goes wrong, creditors must wait a reasonable time. But when people on wages or salary bank on their dreams, they commonly go broke.

Many people, finding a ten dollar bill in their pockets, feel sanguine, step high and send the tradesman's wagons hustling with deliveries to their homes. The fact that old accounts are due, is forgotten.

"The best every day resolution is to pay every debt you possibly can even if you have to wear your old clothes to church." Thus concluded the salesman whose remarks suggested these reflections, and he was right.

What a Revival Is.

The word "revival" is often given a meaning which primarily does not belong to it. Many emphasize the conversion of sinners as the essential element in revival work, but that is the secondary meaning of the word. Essentially "revival" means the quickening of God's people. You cannot revive a dead man. The unregenerate sinner is spiritually dead. He must be born again. Now, you may revive a partially drowned body or a partially frozen body. The regenerate soul's life often weakens and wanes until the flame almost flickers out. But if there be the least spark of life left it can be fanned into a flame, and, like the apparently dead cinder in the smithy's forge, that spark will touch others and kindle a flame that will enthuse a church, a city or even a nation. A revival of religion, then, must legically begin with the church. Such is the divine order.—Christian Herald.

Freaks of Language.

A peculiar kind of blundering known as "folk etymology" is responsible for some of the queerest freaks of language. An easy example will make this clear. Our American word "carryall" for a kind of vehicle is not a compound of "carry" and "all," but a slight distortion of the French "carriole," a diminutive car. The change was made in obedience to the universal tendency to assimilate the unknown to the known, to make words mean something by associating them with others which they resemble in sound. Often there is no etymological relation between the words associated, as when sparrowgrass is made out of asparagus. This particular corruption was once in such good colloquial use that Walker, the lexicographer, wrote, "Sparrowgrass is so general that asparagus has an air of stiffness and pedantry."

Movies Taken For Ghosts.

According to a missionary, the first display of moving pictures in the province of Szechuan, China, 2,000 miles up the Yangtze, caused a mob disturbance of alarming proportions.

When the bodiless, yet vigorous shadows began to move silently across the screen in the visible but immaterial simulation of life murmurs arose, soon increasing to shouts and uproar, that foreign devils had possessed the locality and were in league with the spirits of the dead. Actual destruction and perhaps bloodshed was prevented only by the clubbed guns of the native soldiery. Later, when the pictures were explained, the natives became ardent fans. The first feature films shown in Szechuan caused the outburst of superstitious rage.—Photoplay Magazine.

Devil Ships and Fire Ships.

Two warlike contrivances of ancient days were devil ships and fire ships. A devil ship is a ship that has been filled with explosives, which discharge either by means of a fuse, or clockwork, or when the ship hits another ship or obstacle. They were employed as long ago as 1585 by the Dutch, when the Prince of Parma besieged Antwerp. In those days they were sent down the river to explode against a wooden bridge built by the defenders of Belgium's most important city. The fire ships were usually filled with dry wood smothered in pitch, oil and other inflammable material, and when fired were sent drifting against any defense work or ships of the enemy.—London Opinion.

Old English Fairs.

Fairs and feasts were formerly held in churchyards in honor of the saint to whom the church was dedicated in consequence of these popular gatherings being much abused they had to be suppressed in the thirteenth year of the reign of King Edward III., as appears by the following extract, quoted by Speiman: "And the Kynge commandeth and forbiddeth that from henceforth neither fairs and markets shall be kept in churchyards for the honour of the Church. Given at Westminister, the VIII of Octobre, the XIII yeare of Kynge Edwarde's reigne."—London Mail.

Lightning.

Lightning appears in three forms—zigzag and sharply defined at the edges, in sheets of light, illuminating a whole cloud, which seems to open and reveal the light within it, and in the form of fire balls. The duration of the first two kinds scarcely continues the thousandth part of a second, but the globular lightning moves much more slowly, remaining visible for several seconds

The Boob.

"Yes," said the young lady, "I spent the entire evening telling him that he had a terrible reputation for kissing girls against their will."

"And what did he do?"

"He sat there like a boob and denied it."—Kansas City Journal.

Patching Battleships.

After a battle Jack tars have several methods of stopping the incoming water when a battleship has been hit below the water line. For instance, if a small hole has been made in the vessel's side an apparatus like an umbrella is used. This is thrust through the hole point first and then drawn back so that it will open like an umbrella, leaving the canvas outside.

Of course the pressure of the water effectually forces the canvas against the ship's side, thus stopping the leak. But to make it more secure the handle of the umbrella, which is formed like a screw, is fastened by a nut inside.

In the case of a bigger leak—when the ship has been stove in below the water line—a large mat made of canvas and oakum is used. This has to be fixed into position by means of ropes. But the fixing is not a very easy matter, as one rope has to be got right under the keel to the other side of the ship in order to drag the mat down to the hole. Two or three other ropes are also required at different angles to guide the mat to its right position.—Pearson's.

The Submarine.

There is little glorious about the service of the submarine. She is the sneak of war's bloodthirstiness, creeping upon her victim like a murderer in the dark. For her there is no defiant battleflag, no glint of sun on wave, no thrilling roar of battle. She worms her slimy way through the murk to kill or be killed in the horridly practical business of slaughter. Her seamen toil amid mere machines. For the scent of burning powder she supplies the reek of gasoline. Her crashing broadside is but the backing cough of compressed air. And her end comes not with mastheaded ensign, but upside down with her people tangled in the gear. And this is the service which takes the strongest, the bravest, the dauntless. There can be no trepidation in the spirit which guides the submarine twisting through the depths, where, if she cannot be seen, she cannot see and where death lurks everywhere.—Hartford Times.

The First Doctor.

The oldest physician whose existence was known practiced at the court of a Pharaoh of the fifth dynasty about 6,000 years ago. His popularity with his master had apparently been great, for the Pharaoh had given an order that he should be supplied with slabs of stone for his tomb similar to those he was having prepared for himself. His private life had evidently been less happy, for in every case the name of his wife had been erased. Splints found in the Nubian desert were similar in principle to those of the present day, and the knots used to keep them in place were reef knots the same as those now taught to students. The bandaging, as today, was done so that the folds crossed at right angles, with a view to their being kept in place. Palm fiber was used to serve the function of cotton wool and a fine linen to take the place of gauze.

His One Luxury.

A wealthy London dandy was noted for always wearing a costly flower in his buttonhole. Then he lost all his money and in time became shabby, but still every day he wore a fresh and expensive bouquet. Curiosity prompted one of his old time friends to ferret out the reason, and he discovered that in the man's prosperous days he found it "a bit of a fag" to pay for his flower every day, and so, in a very lavish mood, he struck a bargain with the florist that for a lump sum down—and it was not a small one—he was to be supplied with a fresh bouquet of his own choice every day for five years. The result was that, although sometimes he had not enough ready cash for a crust of bread, he was always able to claim his flower and to sport "a poppy or a lily" as he walked down the Strand.—London Answers.

Simple Nail File.

One of the nicest nail files you can get is a bit of whetstone, say one and one-half inches long. Try different stones and select the one whose texture best suits the texture of your nails. By using it frequently you can eliminate the cutting of the nails. It leaves a beautiful smooth edge on the nail, is quicker and easier to use than a steel file and never produces any of those unpleasant sensations that so often attend the use of a steel nail file.—Farm Life.

Horse of Another Color.

"That's marvelous quick promotion o' that ne'er-dae-weel son o' Donald son's. They tell me he's been proposed for a field marshal."

"Aye! His father was awfu' proud till a wire cam' sayin' it wis a mistake. It wis a court martial."—London Bystander.

Advice.

"Because they once saved that city to this day geese are honored in Rome."

"In that case if I were you I think I'd go and live there, my dear."—Kansas City Journal.

Getting It Straight.

D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands?

That fluid is the famous D. D. D. prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient. "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. T. RICHARDSON frankly writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent."

To do the work, D. D. D. Prescription must be applied **according to directions** given in the pamphlet around every bottle. Follow these directions—and see!

And it certainly takes away the itch at once—the moment the liquid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cooled.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.

MONESSEN PA. OLYMPIC HOME OF THE PIPE ORGAN

Our Program for This Week Surpasses all the Previous.

WEDNESDAY—The wonderful episode of "Neal of the Navy"—"A Message from the Past," featuring the famous actress, Lillian Lorraine and Wm. Courtleigh, Jr.

THURSDAY—Now look out. Never in the history of the moving picture world has there ever appeared on any screen, any picture more thrilling, more stupendous or more expensive. It cost $500,000. We said the carpenters alone got one hundred and seventeen thousand dollars $117,000 and not $11,700 as by a mistake of the printer was advertised in yesterday's Daily Independent.

"The Campbells are Coming" is the famous Broadway Universal feature with the brilliant stars Francis Ford and Grace Cunard acting in the thrilling serial picture "The Broken Coin." "The Campbells are Coming" is the greatest military spectacle of the year in photo play, with a cast of 25,000 people. A gigantic and wonderful presentation of the Relief of Lucknow, India, 1857.

FRIDAY—Special —The Quality Picture Corporation through the Metro Picture Co. presents the sovereign of screen stars Francis X. Bushman and Marguerite Snow in an admirable vehicle. "The Second Command." Francis X. Bushman and Marguerite Snow are so well known and so famous that further advertising would be considered useless. It is a great feature.

SATURDAY—One of the famous 101 Bison features, "Mettle of Jerry McGuire," and our famous serial picture "The Diamond from the Sky" Now you remember that in addition to these big features of dramas, we have every one of famous comedies of famous companies.

Monday—One Nestor L KO.
Tuesday—One of Imp's.
Wednesday—One of L KO in two reels with Billie Ritchie.
Thursday —One Powers and one Nestor comedy
Friday—Charles Chaplin.
Saturday—One of Joker and one of L Ko comedies.

SYNOPSIS OF OUR WONDERFUL SERIALS THIS WEEK

THURSDAY—The most astonishing, the most wonderul, the greatest military spectacle of the year, "The Campbells are Coming," a Universal feature featuring the well known stars, Grace Cunard and Francis Ford. One of the most, if it is not the only one, expensive production on the market. A matchless romantic war drama that stirs your every emotion. Remember it, Thursday and do not forget Friday that Quality Picture Corporation through the Metro Co. present at the Olympic the sovereign of screen stars, Francis X. Bushman and the exquisite artist, Marguerite Snow in an admirable vehicle "The Second Command," in five parts. Useles to say very much about Francis X. Bushman and Marguerite Snow. They are second to none on the moving picture stage. Miles and miles the moving picture fans are traveling only to see these famous stage stars.

For SATURDAY—There is no use to say anything further, only to tell you that for our special we have "Mettle of Jery McGuire, a drama of the famous Bison sompany 101 ranch, the 26th episode of "The Diamond From the Sky" and on the top of this three comedies,—"His Twentieth Century Susie," a Joker production; "Cupid and the Scrub Lady" one of L KO's and last but not least Charles Chaplin in a comedy. You dare not miss such a week of offerings at the Olympic.

More Suits Are Filed

Uniontown, Pa., Nov. 16—Suits for sums totaling over $1,900,000 were filed here today against J. V. Thompson, W. J. Johnson and John F. Augustine, receivers for Jasper Augustine, filed suits against Mr. Thompson for $64,737.33 to recover on a series of promissory notes. For several years Mr. Augustine was one of the Thompson agents engaged in optioning coal lands for him. In addition from 1912 until the Thompson failure last January, Mr. Augustine was engaged also in procuring loans for Thompson, paying large bonuses for them. Chiefly by his associations with Mr. Thompson, Mr. Augustine became a millionaire and lent Thompson most of his fortune to save the former banker and coal land operator from failure.

Suit was filed also for Mary Pollak, an Austrian, against John H. Strawn, receiver of the First National bank of Uniontown, and also against the bank. It is charged that Frank W. Semans, Jr., former assistant cashier of the bank, fraudulently caused her to sign an order for her deposit for $1,050 at the bank and gave her a receipt for a bond in the Thompson Coke company.

The woman who says she can neither read, write nor speak English, alleges that she never purchased a bond in the Thompson Connellsville Coke company. She alleges the bond was never delivered to her.

In speaking of the suit Receiver Strawn said: "The suit was unnecessary. There is a Thompson Connellsville Coke company bond being held for safe keeping at the bank. I wil give the woman the bond, provided I get a receipt for it. As to the value of the bond, I regard it at least as good as a claim for $1,000 against the bank."

The creditors' committee today discussed plans to organize a permanent committee, which will receive the holdings Thompson has agreed to assign at the end of the month. One of the missions of the creditors' committee in New York was to find prominent attorneys and financial men to serve on this permanent committee. It is believed, however, that persons from this vicinity will serve on it.

foundations as our public schools, our churches, with the great difference that in the moving picture institution you can be reformed by the powerful lesson of a single picture. Many millions have and you, the reader of this ,know it, too.

We call your attention today, tomorrow, Wednesday, Thursday, Friday and Saturday, especially Thursday and Friday. "The Campbells are Coming" is the most expensive and the greatest military spectacle of the year, with Francis Ford and Grace Cunard or "Kitty" as you know her in "The Broken Coin." Friday, the famous star of stars, Francis X. Bushman and Marguerite Snow in "The Second in Command" in five parts. We want all and everyone to attend these pictures. Their results are guaranteed. We must use the brains God gave us.

UNION CITY VICTIM REGAINED HEALTH

Mr. Martinran Finds Good Health After Using Wonderful Remedy.

C. Martinran of 42 Graves street, Union City, Pa., after long suffering from ailments of the stomach and the digestive tract, took Mayr's Wonderful Remedy with the most remarkable results.

The suffering of years was ended with the first dose.

Mr. Martinran's experience is told in a letter—written a year after taking the remedy, thus proving the permanent nature of the benefits. He wrote:

"It has been a year since I took your treatment, which I am sure did me a great amount of good. My health at present is good, thanks to your wonderful remedy. I will always recommend it to my friends."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

COMFORTING WORDS

Many a Monessen Household Will Find Them So

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Monessen readers.

Mrs. Ida Coleman, 311 Sixth St., Monessen, says: "I was troubled by a constant backache and in the morning especially when I stooped to put on my shoes, I found it hard to straighten. Sharp pains took my breath away. I felt tired all the time and had dizzy spells and hot flashes. My head ached. I doctored for a long time but didn't get much good and finally I used Doan's Kidney Pills which I got at Kirk's drug store. They gave me great relief and after I had taken the second box, the trouble disappeared. I haven't had any cause for complaint since. Others of the family are now using Doan's Kidney Pills and consider them the best kidney medicine on the market."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Coleman had. Foster-Milburn Co., Buffalo, N. Y.

Suffragists Are Hopeful

Harrisburg, Pa., Nov. 16—In the interest of accuracy and fair-mindedness, a final statement on the showing made by the Pennsylvania suffragists on election day has been delayed until yesterday. We regret that it is impossible even now to give definite figures, but the fact remains that there are still a few big counties in which the returns are delayed because of contests. The charges of fraud in these instances are not on the vote of our suffrage amendment but on the county ticket. Until all these cases are settled, it will be impossible to give out final figures, but the present indications are that the adverse vote will be between 45,000 and 50,000.

All in all, approximately 710,000 votes were cast on the suffrage amendment. Of this number approximately 330,000 were in favor. These figures in themselves disprove for all time the assertion that there is any apathy on the subject of "votes for women" in Pennsylvania.

—"The Spender," or the Fortunes of Peter, a Gold Rooster play in five parts is casted by the eminent stars. —"The Spender," or the fortunes of Peter in five reels today at the Olympic. It is a great lesson to all American girls as well as mothers and fathers. 1t

—Peter, the expelled son in his despair seeks a fortune in America, like all do. He posed as a prince and as usual married a newly rich Yankee, but against her fathers wishes of course. So poor Peter's identity was soon disclosed, his wife though disillusioned sticks bravely by him and their end was a happy one. This is a part of the splendid Pathe fine feature at the Olympic today. 1t

EUGENIC MARRIAGES

Will insure to this country a healthier and more intelligent "family of the future" and many a woman obviously unfit for marriage, has had her health restored by the timely use of Lydia E. Pinkham's Vegetable Compound, the most successful remedy for female ills the world has ever known. Enormous quantities of roots and herbs are used annually in making this old fashioned remedy and no woman who suffers should lose hope until she has tried it.

Ban Placed On Fake Schemes

Fake advertising schemes, as exploited by itinerants who have been in the habit of separating the merchants from a considerable sum of cash annually, were placed under the ban by the Canonsburg Chamber of Commerce when an amendment to the constitution was adopted. The amendment requires that before a member of the Chamber of Commerce patronizes a so-called fake advertising scheme, he shall first obtain from a duly accredited committee of the organization a card or permit. If he patronizes a scheme that the committee has disapproved, then the member will be compelled to pay a fine of $10 to the Chamber, and to double that sum for a second offense.

The amendment was presented to the Board of Directors, and after some slight changes was read at a meeting of the entire body, and after a rather free discussion was passed by a unanimous vote of the half hundred members present. The action confines advertising to duly recognized daily, weekly and monthly publications, street cars, booklets and such other methods as are recognized as legitimate. It is intended to bar the itinerant who comes to town, "works" his scheme on the merchant, and then goes his way, taking the money he collected with him and leaving nothing of value in return.

Water Barons Must Answer

The Public Utilities commission, which has been conducting a very exhaustive and a very thorough investigation of the manner in which the Westmoreland Water company has been charging its consumers many times the actual cost plus a reasonable profit, on the actual capital invested in the system, expect to return to Greensburg next week to complete their labors. Council for the allied boroughs have only a few witnesses to testify as to the proper rate to be charged for the services, etc., and minor details.

Much curiosity is entertained generally by those who have been following the hearings as to the sort of a defense the water barons will present in rebuttal. If President W. A. Huff is to be the star witness for the plutocrats it will be necessary for him to refresh his memory on every phase of the situation, assuming that he was about normal when the big baron testified Friday.

D. L. Dillinger, the treasurer, the twin big brother, should be able to shed considerable light on the water situation, the methods of financing company, etc.

Mr. Joyce, the Commission's great expert, Dr. Snow, Mr. Knight, H. Dallas McCabe, County Commissioner William G. Muse, John Hayes Smith and other experts who spent months of hard labor on the books of the water company and the underlying ones which were swallowed up in the merger, unearthed a startling state of affairs.

It is said that members of the Public Utilities Commission have indicated that this body hopes to render its decision fixing the legal rate which the barons may charge their small consumers for water per thousand gallons as well as the flat minimum rate for each meter. Mr. McCabe fixed this at 11.17 cents per thousand cubic gallon with a flat rate of $5 per year. This is just one-eighth of the meter rate which it was testified each of the 7,300 small consumers paid. The big consumers always got their supply at 11 cents.

In New York City a few years ago the gas barons raised the rate at which they had been supplying customers of gas in the metropolis. Finally the people refused to pay the exorbitant charges and the courts and Public Service Commission was enlisted. The barons were not only compelled to furnish gas at a fair rate but the gas company was compelled to refund the money which the courts held it had collected.

It is claimed that the Greensburg water case is similar in every respect to the New York gas case. The decision of the Commission fixing the rate is eagerly awaited by the people. And if the consumers can recover money they have been unjustly forced to pay for water, it is said steps will be taken to recover from the coffers of the barons.

Dustin Farnum in "Captain Courtesy" at the Star theatre Wednesday.

Was Reinstated

Washington, Nov. 16—Under direct orders from President Wilson, George Burkitt, assistant postmaster at Winnetka, Ill., who was ousted because he criticised the president for becoming engaged to Mrs. Norman Galt so soon after the death of Mrs. Wilson, will be reinstated immediately.

The reinstatement is unconditional. For a time it looked as though there was a lack of team work between the White House and Postoffice department, the former stating that Mr. Burkitt would be reinstated if there were no other charges against him in addition to his criticism of the President and the postoffice, stating that there were many other charges against Mr. Burkitt. Second Assistant Postmaster General Roper said that in the meantime Mr. Burkitt stands suspended. This announcement followed the first White House declaration that Mr. Burkitt would be reinstated "if there were no other charges against him" by about an hour and a half. Later, however, the White House, anxious to put an end to the discussion of an unpleasant incident, stated that Mr. Burkitt would be reinstated unconditionally.
